## IMITATIONS

The sterling work of BUGA-UP, the Sydney group which spray-paints satirical messages on posters advertising unhealthy products, has been recognised in London. A group has been formed to do a similar job there. It is called COUGH-UP, which stands for Citizens' Organisation Using Graffiti to Halt Unhealthy Promotions. Its first effort has been carried out on ads for a brand of cigarettes which have the slogan "Make A Note Of It." COUGH-UP has added the words "a suicide note." It's not bad for beginners but they've a lot to learn from our experts.
